Migrate and Modernize Your Estate Win Formulas

Aligned to Microsoft Program Incentives and Selling Motions

Partner enabled Program and Incentives

		Win Formula	Enterprise	Corporate	SMB
Secure all workloads with Defender	Priority	Drive Migration and Modernization of Windows Server, SQL Server, .NET, & Linux, PGSQL, Java	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>
	Priority	Capture VMWare opportunity with migration/modernization to AWS and Azure IaaS and PaaS	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>
	Priority	Migrate & Modernize SAP on Azure Migrate & Modernize Oracle on Azure	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>

Win Formula: Drive Migration and Modernization of WS, SQL Server, .NET, & Linux, PGSQL, Java

Customer Outcome

Enhance business agility and security, while optimizing costs and performance to accelerate AI innovation by migrating and modernizing applications in Azure.

Partner Outcome

Help grow profit and win customer deals by migrating and modernizing Windows Server, SQL Server, Linux, PostgreSQL, Software Development Company (SDC) applications in Azure, leveraging Microsoft's investments.

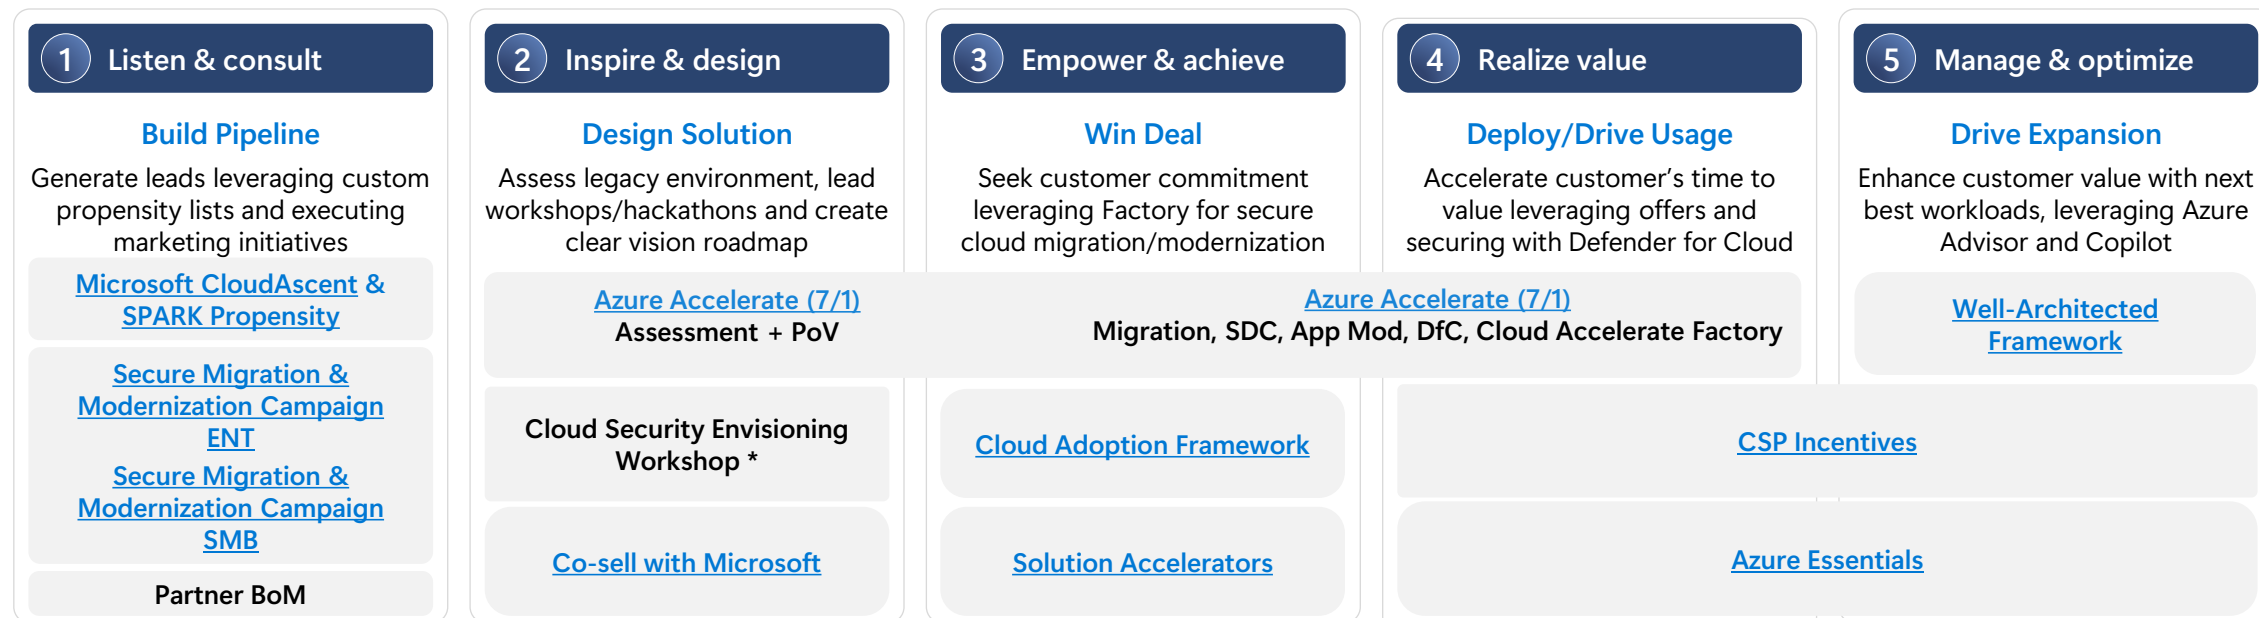

Differentiated Partner Capabilities

Attain Infra DB, App Mod Specialization or Azure Expert MSP and be the Azure cloud and AI trusted advisor

Refresh your skills and capture the .NET and Java application migration and modernization opportunity with your proven case studies, IPs and repeatable offers

Enable customers to grow their Azure estate by creating the foundation to securely innovate with AI leveraging the Cloud Accelerate Factory

Win Formula aligning to MCEM

Win Formula: Capture VMware opportunity with migration/modernization to AVS and Azure IaaS & PaaS

Customer Outcome

Quickly migrate your VCF private clouds to Azure with access to 200+ Azure services and savings while leveraging your existing VMware skills.

Partner Outcome

Accelerate your migration and modernization revenue by targeting the 85 million VMs on-premises **, while leveraging Azure VMware Solution (AVS) as the fastest path for VMware to the cloud.

Differentiated Partner Capabilities

Attain AVS specialization or Azure Expert MSP and be the Azure cloud trusted advisor

Drive assessments and AVS POCs to accelerate secure VMware migrations

Lock in VMware savings for customers with reserved instances and Cloud Accelerate Factory

Win Formula aligning to MCEM

Solution Play: Unify Your Data Platform

Customer Opportunity

The total TAM for analytics and business intelligence is around **\$48B in FY25** and should be around **\$72B by FY27** according to IDC

\$48B in
FY25

The diagram illustrates the projected growth of the Total Addressable Market (TAM) for analytics and business intelligence. It features two blue circles connected by a double arrow pointing from left to right. The left circle contains the text '\$48B in FY25' and the right circle contains '\$72B in FY27'.

\$72B in
FY27

Win Formula: Unify Your Data Platform

Customer Outcome

Evolve to a data-driven business by connecting your siloed data estate and accelerate your AI transformation through a unified data platform.

Partner Outcome

Unify customer data estate and deliver differentiated data solutions to customers, helping them realize greater business value with proven end-to-end engagement model with Microsoft.

Differentiated Partner Capabilities

Lead with Unify Data to help customers accelerate AI transformation

Align customer goals to Data and Analytics use cases and deploy repeatable Data Platform solutions to realize business value

Drive solution adoption across business units and organizations

SME&C Consolidated View

Win Formula: SME&C Cloud and AI Platform

Customer Outcome

Accelerate AI transformation and time to value with enterprise-ready solutions powered by the Microsoft Cloud and AI platform.

Partner Outcome

Grow profit and win customer deals by migrating and modernizing applications in Azure, leveraging Microsoft's investments.

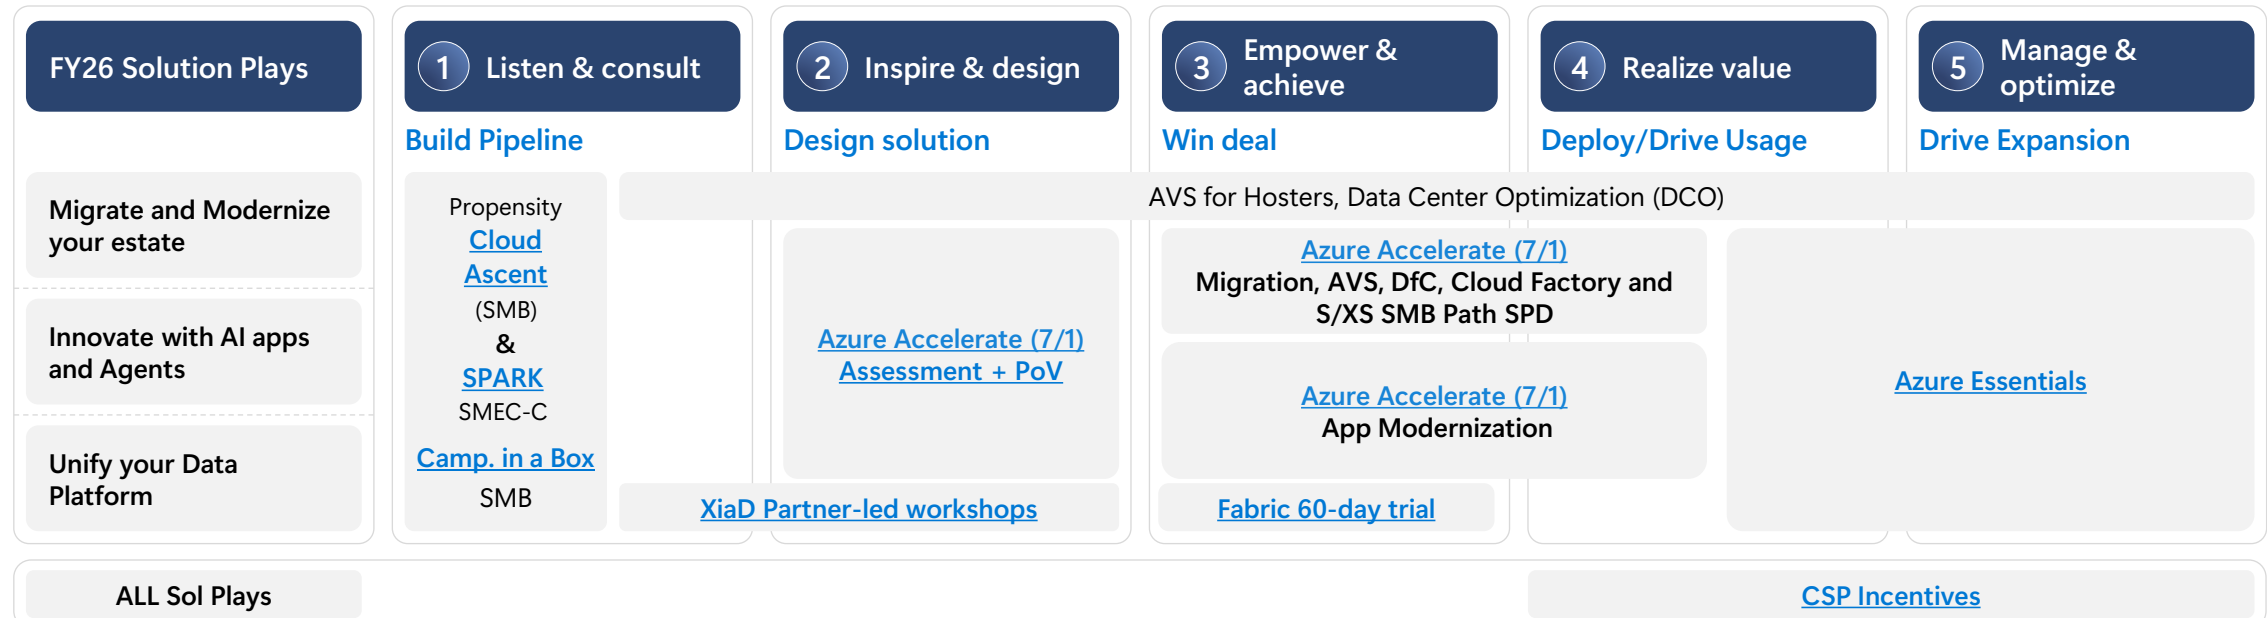

Partner Role

Attain Solution Designation and Specialization be the Azure cloud and AI trusted advisor

Align customer goals to Migration, Data, AI and Analytics use cases and deploy repeatable solutions with security foundations

Enable customers to grow their Azure estate by creating the foundation to securely innovate with AI

Win Formula aligning to MCEM

Partners Commitments for Joint Planning

Keep engaged with shared leads in Partner Center

Use the Leads tab > Planned Items to take action (accept or decline leads) within 14 days.

Collaborate with MSFT sellers to drive opportunities

Seek assistance from Microsoft SME&C seller by transforming the referral into a Co-sell opportunity.

Track performance from engagements

Review leads details and performance to determine next best action and have regular discussions with your PDM/PSS.

Keep the feedback loop

Share your experience and ideas to improve to foster mutual growth.

Cloud & AI Platform Play-wide Strategies

Demand Generation, Propensity, CIAB – SPARK – What is SPARK Propensity?

FY26 Coverage

All

Solution Areas

Mainstream

Solution Plays

Enterprise & Corporate*

Customer Segments

Eligible Partners^

Partners

Intelligent data models which leverage telemetry data to predict a customer's likelihood of purchasing a Microsoft solution

How it works

1 Aggregate inputs across Microsoft data sources

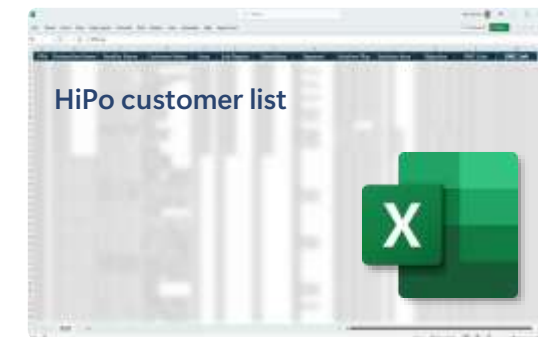

2 Assign propensity score based on affinity & best fit

Scoring logic varies by Solution Play

3 Identify high-potential customers to drive growth

Compliant, partner-ready propensity lists, now available via the Partner Center Insights Workspace

FY26 SPARK Propensity | Partner CTAs

Benefits for partners

- **Increase sales velocity** by targeting customers most likely to drive growth
- **Stronger collaboration** due to shared visibility between partner & MSFT roles
- **HiPo customer opportunities** are directly aligned to **MSFT strategic goals**
- **Aggregated marketing resources** to help easily find & leverage assets
- **Dynamic propensity models** are continually trained & improved

Getting started

Visit [SPARK Propensity in Partner Center Insights](#) on MS Learn for info on:

- How SPARK models work
- How to download SPARK Propensity lists
- Customer targeting scenario CTAs

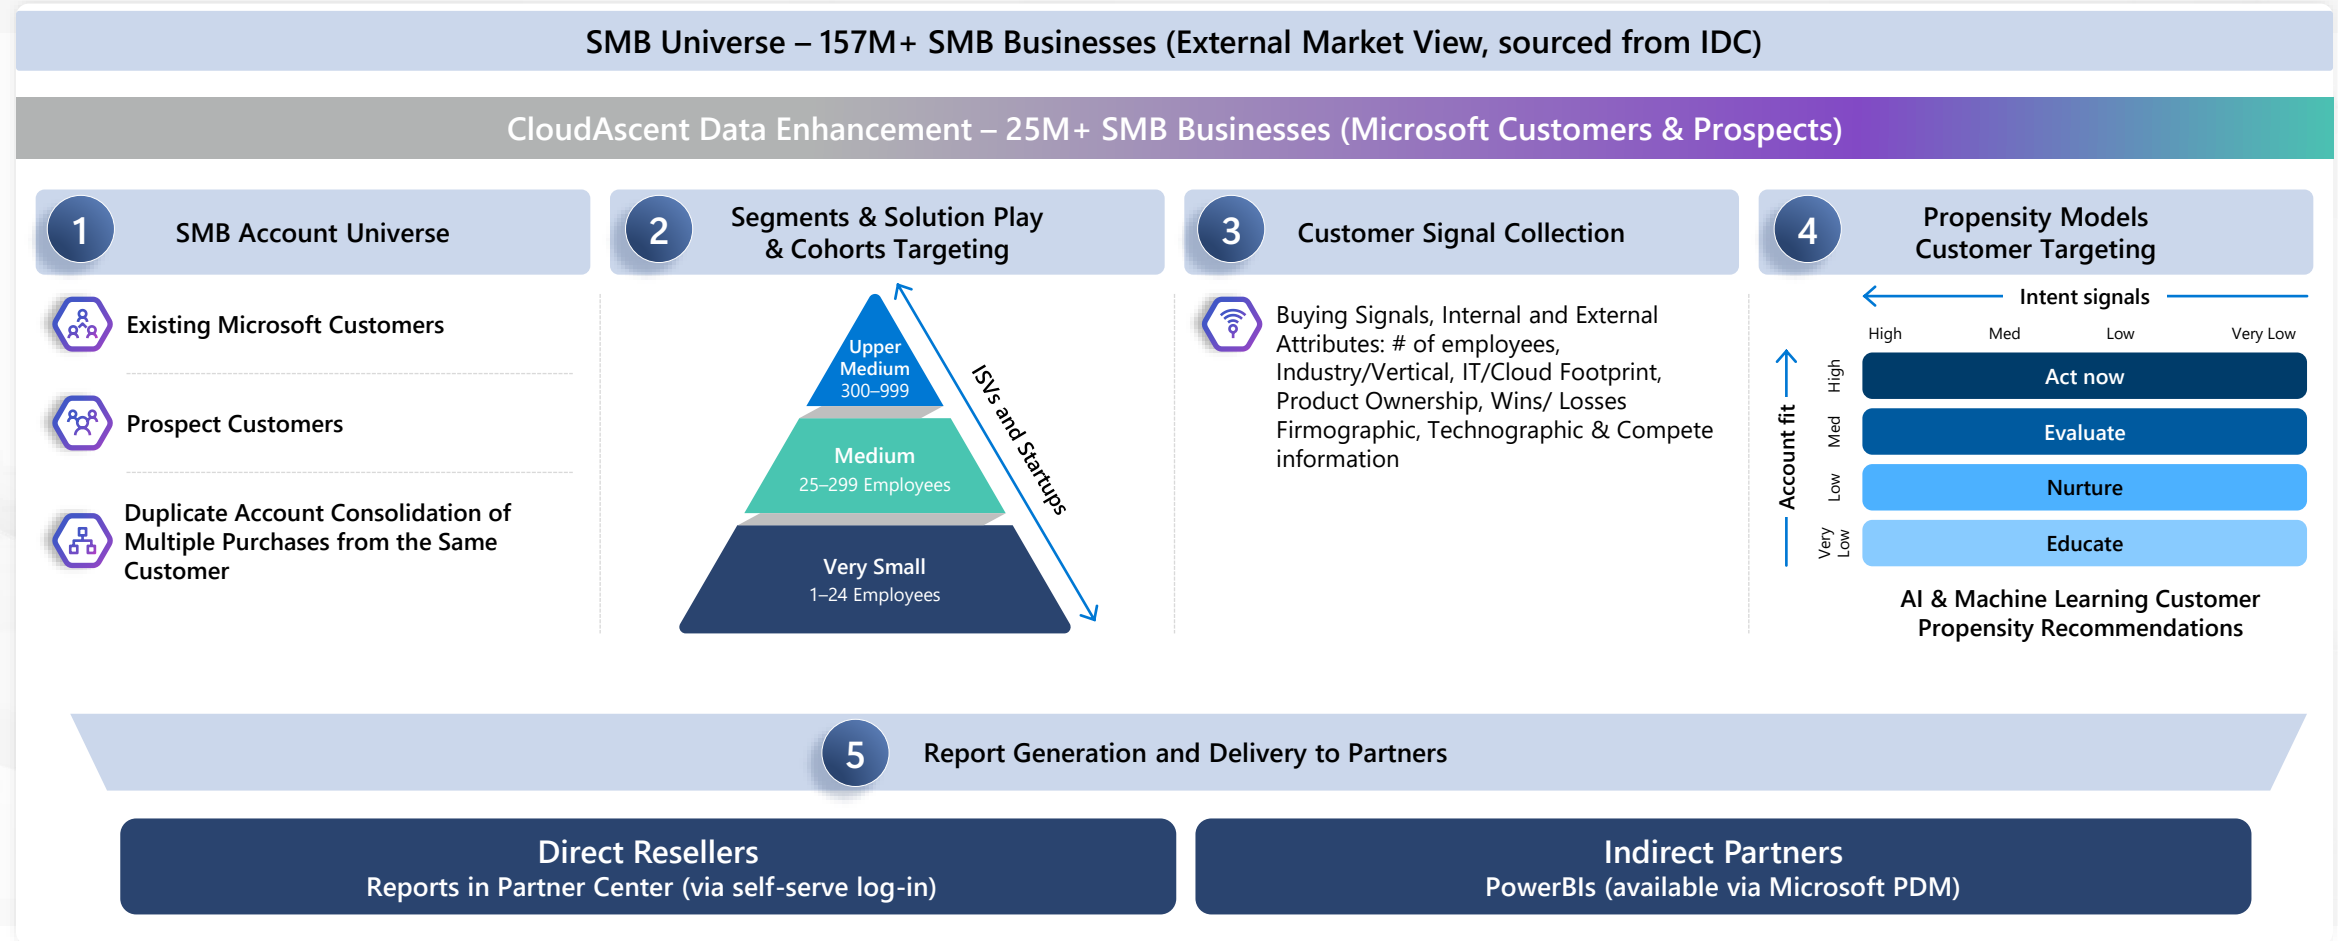

Partner Call to Action

- 01** Download SPARK Propensity data from Partner Center
- 02** Review HiPo customer list with PDM & work together to prioritize execution
- 03** Leverage ready-made marketing assets with targeted HiPo customers (*i.e. CiaB*)
- 04** Work with PDM to monitor solution delivery performance & customer engagement

CloudAscent | What is CloudAscent?

CloudAscent (CLAS) is the engine powered by AI, Machine Learning, and customer intelligence that takes internal and external data to deliver high propensity SMB customer targets to partners for Cloud and AI Platforms, AI Business Productivity, and Security solutions

FY26 CloudAscent SMB Propensity | Partner CTAs

Benefits for partners

- **Increased sales & marketing efficiency** with data driven insights to allow more precise customer targeting.
- **Reduced cost of sales** by reducing the sales cycle times.
- **Improved customer retention** by providing insights into customer needs and behaviors.
- **Act Now propensity recommendations** conversion rate is 3X other propensity levels for new customer acquisition.
- **Act Now NLW* propensity recommendations** for Cloud and AI accounts YoY growth rate is 5X other Azure propensity levels.

Getting started

Visit <https://aka.ms/CloudAscent> to gain familiarity with CloudAscent:

- How CloudAscent works
- How to access CloudAscent SMB propensity lists
- Reseller and Indirect Provider training for specific targeting scenarios

Partner Call to Action

01

Learn about CloudAscent by visiting <https://aka.ms/CloudAscent>

02

Download CloudAscent customer propensity lists from Partner Center for resellers **OR** receive Power BI from PDM for Indirect Providers. Discover more <http://aka.ms/CLASdefinitions>

03

Develop Campaign by familiarizing yourself with the cohorts and readiness material on <http://aka.ms/smbgtm>

04

Engage Sales & Marketing by sharing insights from CloudAscent to align their strategies and efforts

05

Execute and Monitor your marketing campaigns and sales strategies adjusting as needed based on results

Campaign in a Box (CiaB): A Snapshot

What is
CiaB?

- **Ready to launch** customizable campaigns
- **Approved** Microsoft **value propositions, messaging and branding**
- **Aligned** to Microsoft **priority solution areas and industries**
- **Available to all Microsoft AI Cloud Partners**
- Microsoft invests so that partners can **GTM quicker and faster**
- Drive **top of the funnel leads** through partner-led marketing

Example: Digital Marketing Content OnDemand Campaign | Build and modernize AI apps

Build awareness

Demand gen email sequence, social assets/ads, Infographic, Thought Leadership

Acquire leads

E-book: App Innovation unleashed: Seven opportunities to innovate with intelligent, AI-powered apps

Nurture opportunities

To-customer pitch decks

Two ways partners
can leverage CiaB

1 Partner Marketing Center (PMC) –
Downloadable customizable assets
w/ execution guides

2 Digital Marketing Center OnDemand (DMC) –
Platform to launch multi-week campaigns to
generate new leads

Microsoft Co-sell

IP (Solutions-Based) Selling

Generally GISV/ISV partners

'Thing'-based solutions for customer problems
(software, device)

Capability (Services-Based) Selling

Generally GSI/SI partners

'Action'-based solutions for customer problems
(service, execution)

The Value of Co-sell

Co-sell and the joint commitment to partnering

Why we Co-sell

- Joint success and solving for the customer
- Scale and innovation

Successful collaboration

- Transparency
- Trust
- Early engagement

What's in it for you

- Access to Microsoft sellers and Customers
- Increased scale and velocity
- Upsell and cross-sell potential

Quality engagement

- Sharing the right deals
- Quality and completeness
- Ongoing collaboration

Azure Partner Incentives FY26 – Specialized Partners

Azure Partner Incentives FY26 – SMB-Track SPD Partners

Azure Accelerate

One unified offering

- One **brand** for all customer needs across migration, modernization and innovation

Offer simplification

- A **simplified offer construct** with straightforward funding across solution plays and project sizes
- Clear **project size criteria** between partner-nominated and Microsoft field-nominated projects
- **Cloud Accelerate Factory** available for more scenarios

Offer competitiveness

- Increased **partner funding** for pre-sales and select strategic workloads (VMware migrations and SAP)

Increased sales velocity

- Packaged pre-sales offer includes **assessment and proof of value** in a single engagement

Azure Accelerate

Engagement approach

Listen & consult

Inspire & design

Empower & achieve

Realize value

Manage & optimize

Start customer
conversations

Start at any stage, based on readiness

Azure Accelerate

Planning phase (Pre-sales)

Partner nominated offers (for projects <\$500K/year ACR)

Partner delivered

Microsoft field-nominated offers (for projects >\$500K/year ACR)

Partner delivered*

Deployment phase (Post-sales)

Partner nominated offers (for projects <\$500K/year ACR)

Factory + Partner delivered

Partner delivered

Microsoft field-nominated offers (for projects >\$500K/year ACR)

FY26 Partner Performance Measurements

Pre and Post Sales Measurements

Pre-Sales

Partners must maintain a 3:1 ratio of pre-sales to post-sales engagements.

Post-Sales

Partners must meet ACR targets in over 60% of individually measured projects.

Engagement Max Cap Limits

Up to 4 approved claims, with a maximum of 2 concurrent claims. This requirement applies per T-shirt size, TPID, and partner location ID.

Cap on Max Partner Earnings

Partner earnings are capped at \$3M.

Criteria

- Claims monitored over a 12-month rolling window.
- Paused partners may resume participation once they meet the required pre-sales or post-sales ratio thresholds, or after their claims period expires, Partners and field teams can enroll in bi-weekly performance reports for ongoing monitoring.
- Controls are assessed at the PartnerOne ID level, with a global center of excellence advised for partner monitoring their affiliate claims worldwide.

FY26 Azure Accelerate – Partner-Nominated Specialized Partners

Single Slide Overviews

Azure Accelerate Partner Nominated – Specialized Partners

Enables our customers to migrate and modernize existing applications, infrastructure and data workloads to Azure to drive scale, velocity and AI readiness.

Supported Scenarios

Core Migrate and Modernize

Data Platform

AI Apps, Agents & Developer

Customer Criteria: Majors, SMC-Corporate and select SMB customers with a valid TPID detected by Microsoft internal systems (Strategics are not eligible)

Incentive payouts

**\$75K
USD**

Maximum earning opportunity (L+)

Offer	Customer Project Size per Year (Planned Azure Consumption in year 1)	Partner payment* Market A B		Duration	Phase
Pre-Sales Offer (Assessment plus POV) NEW!	Standard: > \$15K	\$15,000/\$12,000		120 days	Pre-sales
	Large: > \$250K	\$25,000/\$20,000			Pre-sales

How To Build Your Practice

Steps to building your practice...

Microsoft AI Cloud Partner Program

Action

Accelerate your practice to Azure Specializations to unlock investments

Solutions Partner designations

Demonstrate your breadth capabilities in the Azure solution area

Stand out to customers

- Differentiate with badging
- Access to exclusive tools, resources and benefits
- Unlock opportunities to sell with Microsoft

Flexibility in attainment paths

- Qualify on either the SMB or Enterprise path
- Single score by designation in Partner Center
- Earn points just by upskilling your teams

Specializations

Differentiate your Azure practice with Specializations

- | | |
|--|------------------------------------|
| Azure Expert MSP | SAP on Microsoft Azure |
| Infra and Database Migration to Microsoft Azure | Microsoft Azure Virtual Desktop |
| Microsoft Azure VMware Solution | Build AI Apps with Microsoft Azure |
| Migrate Enterprise Applications to Microsoft Azure | Kubernetes on Microsoft Azure |
| Accelerate Developer Productivity with Microsoft Azure | AI Platform on Microsoft Azure |
| | Analytics on Microsoft Azure |

Benefits for Solutions Partner Designations

Benefits for Solutions Partners are effective, helpful, and relevant to your organization. We're investing more to help you with business development, increasing customer reach, and expanding technical skilling

Encouraging business development

Product benefits (formerly internal use licenses) have been designed to align to the Solutions Partner designations, including:

- Azure bulk credits for your organization
- Access to development environments
- Cloud services subscriptions that are most relevant in market

Increasing customer reach

- Co-selling with Microsoft to expand your customer footprint
- Go-to-market services, assets, and personalized consultation to help you along your marketing journey
- Microsoft solutions provider placement to increase exposure
- Customer-facing badges to showcase your capabilities

Expanding technical skilling

- Personalized assistance, comprehensive courses, and world-class Microsoft experts to build your knowledge
- Technical presales and deployment services to help you deliver solutions faster
- Product (on-premises and cloud), platform, and technical support to help you troubleshoot specific issues, including technical presales and deployment support

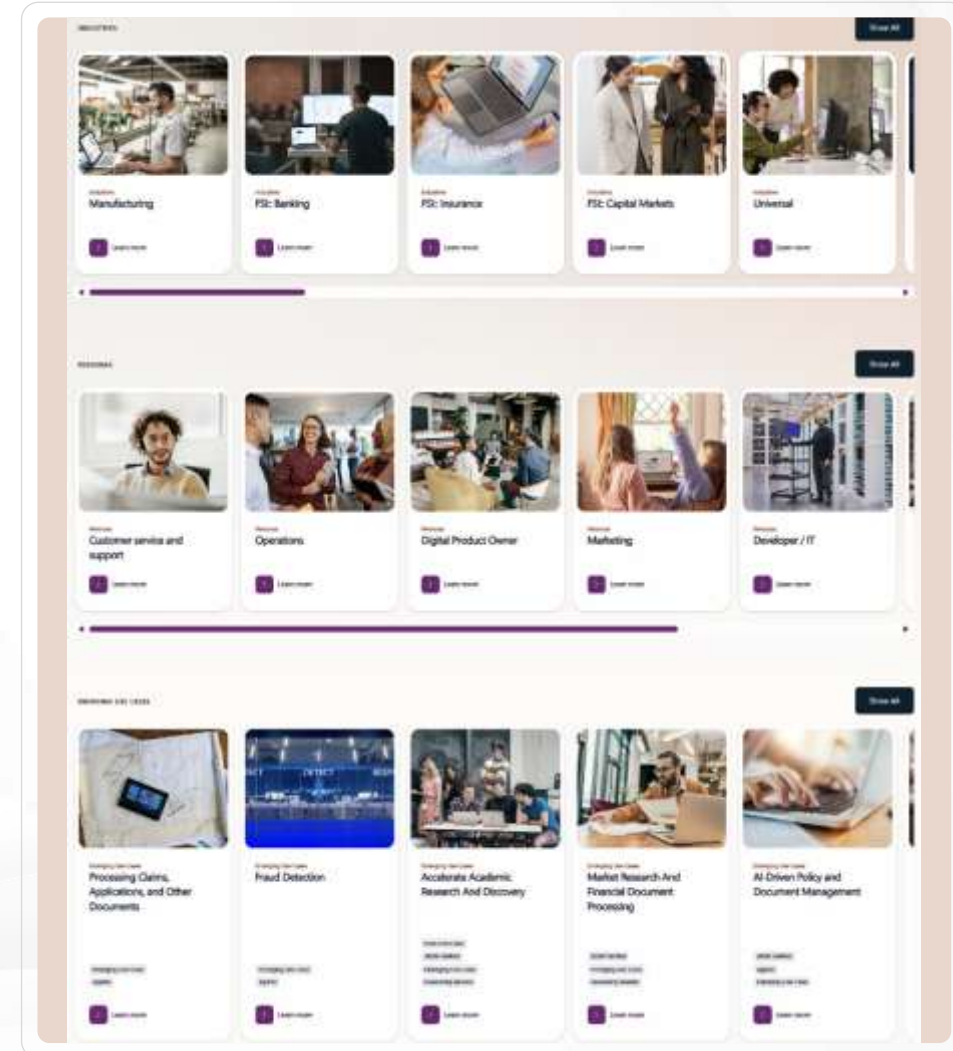

For details about benefits specific to each Solutions Partner designation, review our [benefits guide](#)

	Migrate and Modernize Applications	Migrate Enterprise Applications to Microsoft Azure Kubernetes on Microsoft Azure

New Assets to Drive Azure AI

Asset	Link	Description
AI Use Case Explorer	Microsoft AI Portal	Curated collection of successful AI implementations across different industries and personas. Empowers partners with industry-specific insights and real-world success stories, enabling them to showcase the value of Microsoft's data, applications, and AI capabilities to potential customers.
Gold Standard Accelerators	Available on GitHub and directly in AI Foundry	<p>Unlock your ability to build AI solutions faster with Gold Standard Accelerators.</p> <p>Quickly deploy with regularly maintained solutions built on proven architectures, complete with guidance and sample data you can use or tailor with your own data.</p> <p>Each accelerator is designed around customer patterns to solve real-world business challenges, so you can generate value faster.</p>
Solution Accelerators from Engineering Teams	Build your own advanced AI Copilot with PostgreSQL RAG chat app with Azure OpenAI and Azure AI Search and more.	Pre-built solutions designed to accelerate proof of value for Azure AI. Build by Azure engineering product teams and available to partners.
Hero Demos Industry Sales Kits Azure AI Discovery Questionnaire AI Envisioning Workshops Hackathon-in-a-Box	aka.ms/AIForPartners	New assets for partners to use at early stages of the sales cycle. Designed to accelerate initial AI business discovery and proceed to POV/MVP quickly.

Gold Standard Accelerators - Unlock your ability to build AI solutions faster

Business Problem

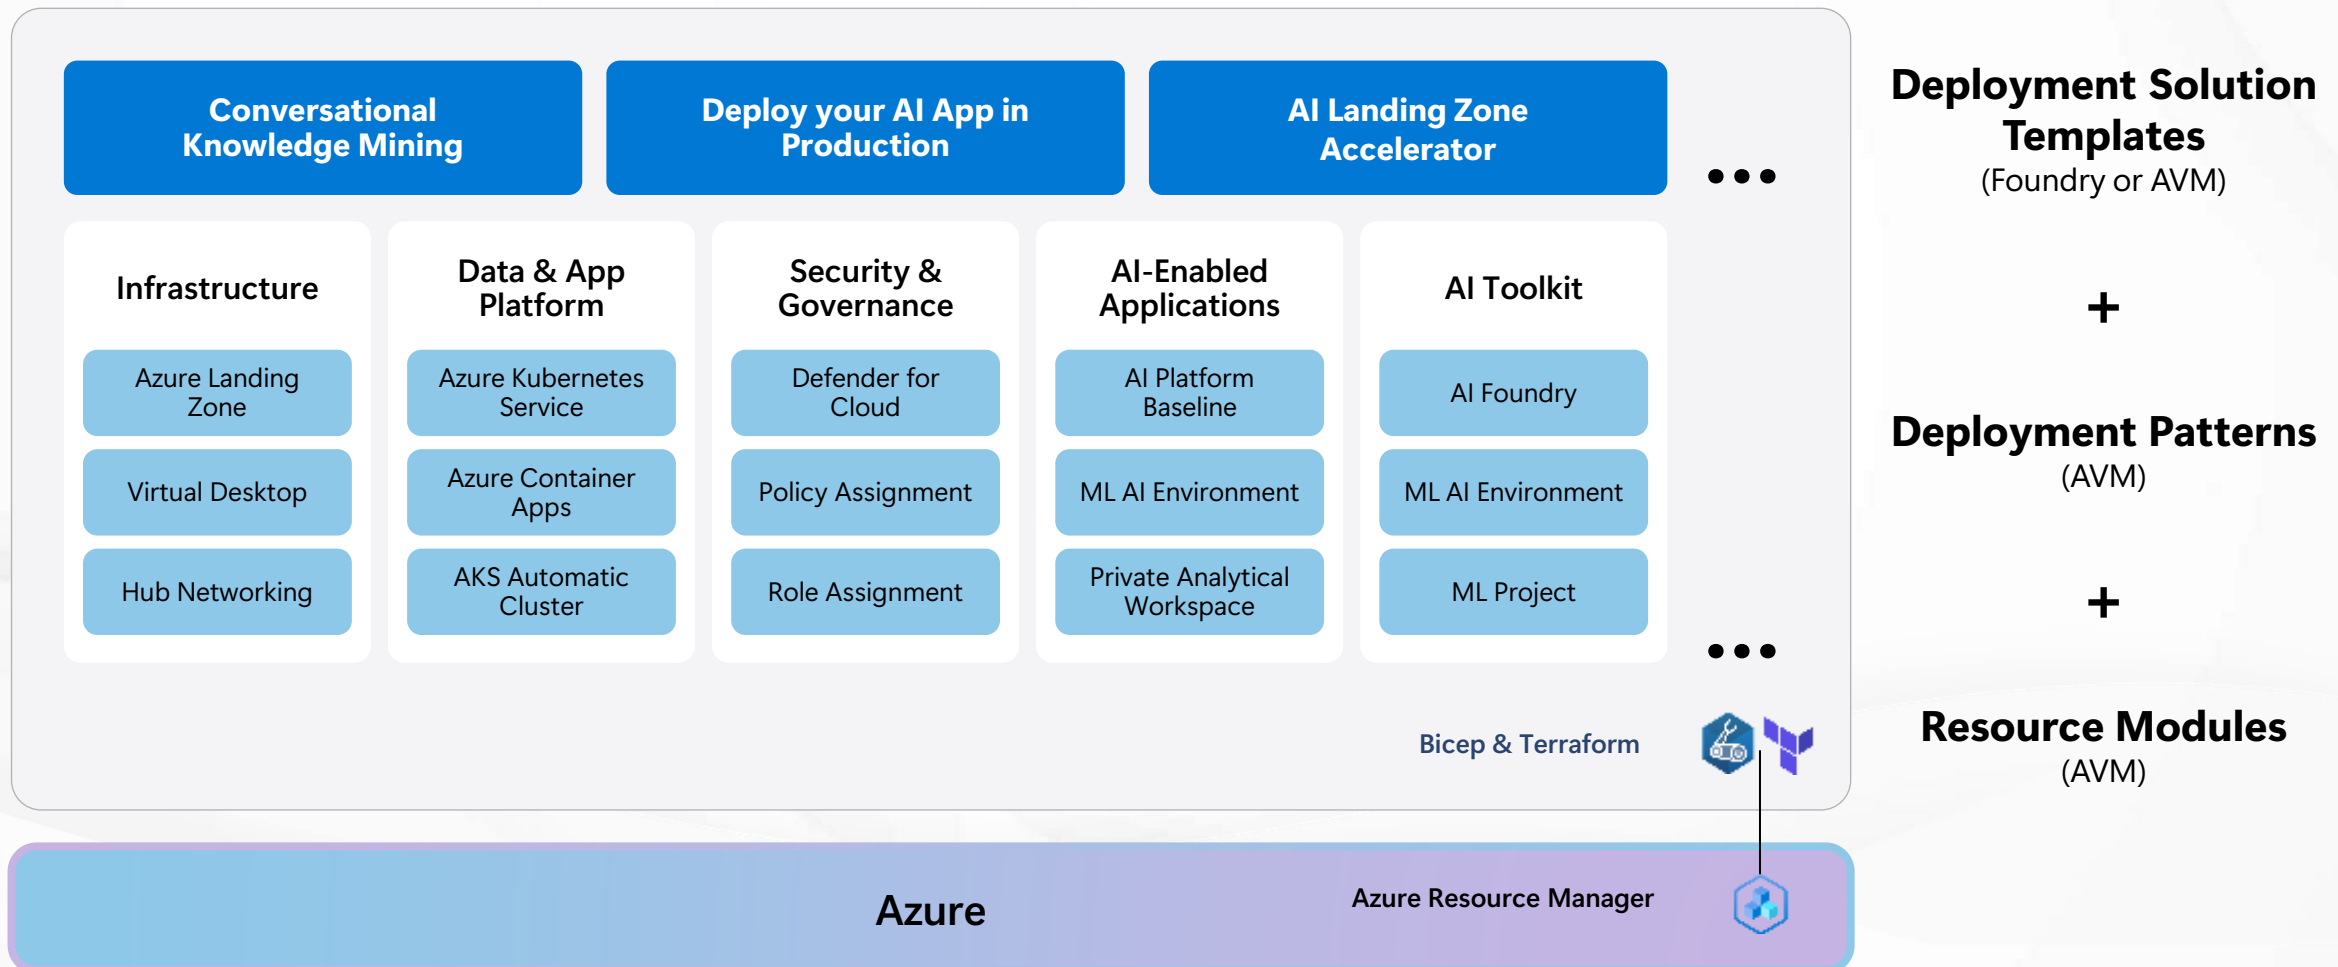

Investing in the creation of AI tools and new capabilities for your business can be a costly, time-consuming venture that may not return the value you expect

Solution

Quickly deploy with maintained solutions built with proven architectures, guidance and sample data you can use or tailor with your own data. Each accelerator is designed around customer patterns to solve real-world business challenges, so you can generate value faster.

Solution Plays	Solution Accelerator	Description	Key Business Use cases	Key Products and Services	Resources
Innovate with Azure AI Apps & Agents	Content Processing	Processes claims, invoices, contracts, and other documents by extracting information from unstructured content and mapping it to a structured format. Enables API-driven automation for data workflows.	<ul style="list-style-type: none"> Documentation of clinician-patient visit and entering summary into downstream systems Claims processing, Invoice processing Contract processing 	Azure OpenAI Service, Azure AI Content, Understanding, Azure Cosmos DB, Azure Container Apps	Cloud and AI Solution Accelerators: github.com/microsoft/solution-accelerators
Innovate with Azure AI Apps & Agents Migrate & Modernize Your Estate	Modernize Your Code	Helps users migrate legacy code using AI, reducing manual effort and enhancing efficiency. Utilizes an agentic framework for code conversion, assigning specialized roles to agents for analyzing, converting, and testing SQL queries.	<ul style="list-style-type: none"> Code translation Generate initial code drafts Code correction and refactoring Root-cause analysis Generate new system designs 	Azure OpenAI Service, Azure AI Agent Service, Semantic Kernel, Azure Container Apps, Azure Cosmos DB	
Innovate with Azure AI Apps & Agents	Chat with Your Data	Combines Azure Cognitive Search and LLMs to create a conversational search experience, minimizing endpoints needed to access internal company knowledgebases.	Internal Chatbot <ul style="list-style-type: none"> Employee chatbot for HR / benefits Professional Services assistance Contact center agent assistance FLW enablement/productivity Employee self-service and knowledge management 	Azure AI Projects, Azure OpenAI Service, Azure AI Search, Azure Cosmos DB, Azure Container Apps	
Innovate with Azure AI Apps & Agents Unify Your Data Platform	Build Your Own copilot	Enables users to create their own copilots using Azure OpenAI Service, Azure AI Search, and Microsoft Fabric. Includes reusable architecture, code snippets, and deployment scripts.	<ul style="list-style-type: none"> AI-enabled product experiences Ecomm. product discovery/shopping assistant Claims/Contract/Invoice process automation Travel assistant Client meeting preparation Research and Development 	Azure OpenAI Service, Azure AI Services, Azure AI Search, Azure Cosmos DB	Azure AI Foundry Templates: https://ai.azure.com/templates
Innovate with Azure AI Apps & Agents	Conversational Knowledge Mining	Improve contact center efficiency by uncovering insights from large audio and text-based data sets using advanced content understanding.	<ul style="list-style-type: none"> Mining call center conversations for insights Call center ops improvement Call transcription and summarization 	Azure AI Content Understanding, Azure OpenAI Service, Azure AI Search, Azure AI Agent Service	AI For Partners: https://aka.ms/AIForPartners/CoSell
Innovate with Azure AI Apps & Agents	Document Knowledge Mining	This solution helps you ingest, extract, and classify content from a high volume of assets to gain deeper insights and generate relevant suggestions for quick and easy reasoning, extract information from documents to provide insights without pre-training including text documents, handwritten text, charts, graphs, tables, and form fields.	<ul style="list-style-type: none"> Document processing and Knowledge Insights Drug Discovery Research 	Azure OpenAI Service, Azure AI Search, Azure AI Document Intelligence	
Innovate with Azure AI Apps & Agents	Multi-Agent Custom Automation Engine	AI-driven orchestration system that manages a group of AI agents to accomplish user-defined tasks. Powered by AutoGen, Azure OpenAI, Cosmos, and infrastructure services, providing a ready-to-use reference application.	<ul style="list-style-type: none"> Employee On-Boarding and self-service, Travel Booking and Expense Management, Supply Chain Planning 	Azure OpenAI Service, Azure AI Agent Service, Semantic Kernel, Azure Container Apps, Azure Cosmos DB	

Deployment Accelerators - Standardized reusable deployment modules designed to accelerate time-to-value

Deployment Accelerators - Standardized reusable deployment modules designed to accelerate time-to-value

FY26 Solution Play	Deployment Accelerator	Description	Access	Additional Resources
Migrate and Modernize your Estate	Azure Verified Modules (AVM)	Shared standard infrastructure as code (IaC) module strategy, making sense of the proliferation of IAC repos with a Microsoft-supported set of resources covering multiple languages. AVM is designed to accelerate deployment. These composable building blocks deploy Azure resources and their extensions, enabling the rapid development of ready-to-deploy assets	AVM website	AVM Intro Video
Innovate with Azure AI Apps and Agents	Azure Foundry Templates – Deploy your AI Application in Production	The Deploy Your AI Application in Production template enables the rapid deployment of a secure, extensible and integrated environment to run your AI applications in production, reducing the effort to design and deploy a production environment from hours to minutes.	AI Foundry portal GitHub	
Unify your Intelligent Data Platform Innovate with Azure AI Apps and Agents	AI Deployment Solution Templates and AI AVM Pattern Modules	Proven and configurable platform architecture, configurable and deployable in hours vs weeks. Aligned to the Well-Architected Framework. Enabled on diverse product structures (e.g. Fabric, Databricks)	AI Platform Baseline Conversation Knowledge Mining in AVM	
Security	Security	Embedded security in all assets through WAF and MCSB. Up to date with latest security guidance across Microsoft	MCSB Azure Benchmark	Azure Security WAF Guidance

Azure Migration & Modernization Partner Forum

Active community of Infrastructure, Database and App Migration & Modernization Partners

Empowerment through Training: Enhance your capabilities and confidence in delivering Azure migration and modernization projects gaining access to comprehensive training programs, focusing on best practices, tools, and methodologies.

Accelerated GTM Execution: Drive effective go-to-market (GTM) campaigns to accelerate Azure migrations and drive customers' business growth getting 1st hand access to tailored GTM resources, including marketing collateral, sales playbooks, and customer engagement strategies.

Collaborative Ecosystem: Join a collaborative environment where partners can share insights, practices, and success stories.

Continuous Support and Feedback: Help improve the Azure Migration investments providing feedback based on your learnings and insights

Online Meetings with Microsoft Experts
